T I M O T H Y

Timothy Seed market quiet - showing rather firm undertone. Latest Government report indicates this year's crop about the same as last. This, together with the comparatively small carryover, makes many of the trade feel friendly toward this commodity. A large percentage of the crop - probably about 75% - has already been marketed. Most of the balance is being held by producers for higher prices.

R E D T O P

Red Top market steady. Government reports indicate 85 to 90% of this year's crop has left producers' hands. Crop larger than last year with some carryover, but on account of the comparatively low prices prevailing stocks are rather firmly held. Good demand is expected for lawn grass and other purposes the coming Spring.
